

Keepsake Memory Box

A memory box is a keepsake box that helps you to gather all the important things that remind you of a special person. This memory box will help you to keep your favourite photographs, drawings, letters and treasured possessions all in one place.

It is important to take the time to find all the treasures you want to keep. When you have found them, place them in the box and then put the box in a safe place.

You may want to look at the box a few times a day or once a week. However many times you want to look at your box, you need to make sure you know where it is.

Please always ask an adult before you take anything to put in your keepsake box. It might be something expensive or important to the adult that they would like to keep somewhere else.

There is a cut out box below that you can make with the help of the adult you are with. You might want to decorate this box and make it special using craft materials or your favourite colours.

You might want to make two boxes so you can keep one and you can send one to your parent/carer who is not with you at the moment. They might like to fill their box with letters from you or photographs of you.
